**Portfolio
Microbiology/
Hygiene Management**

Portfolio Microbiology/ Hygiene Management

Total germ count:

Raw materials, water, semi-finished goods, products

- Bacteria (aerob)
- Moulds, Yeasts

Agar diffusion test

- Inhibition of microbes

Challenge Tests referring to DIN ISO 11930

- Modified to paints and varnishese
- Raw materials, semi-finished goods

Greening test

- Efficacy test of coatings against algae referring to DIN EN 15458

Hygiene Monitoring

- Air monitoring
- Surface test with swab
- Process water monitoring

Hygiene Management

- **Audits** w/o audit report, recommendations, measures, -tracking
- **Consulting** and **assistance** during implementation of operative Hygiene Management
- **Root Cause Analysis**
- **Trainings**
- **Workshops**

Internships focus on

- **Microbiology**
- **Hygiene Management**

Micrological laboratory
